Electronic Cigarette Green Smoke Review - The Natural E-Cigarette

The Green Smoke Electronic Cigarette is a revolutionary smoking device that is really simple to use.

It looks, tastes and feels like smoking a real cigarette. You puff on it like a regular cigarette, inhaling steam with your choice of nicotine and flavor, minus the harmful tar and carcinogens.

It's a **simple two-part design** that is only a re-chargeable battery and a replaceable cartridge that holds the flavored nicotine with a built-in vaporizer. This is what makes it easy for a smoker to switch to Green Smoke's e-cigarette and save over just a short time up to 60% of the costs of the average tobacco smoker's habit. You can safely smoke indoors anywhere, even at bars, the office and other tobacco forbidden places without a problem.

With no second-hand smoke or offensive odors, Green Smoke truly is the social e-cigarette. Smoke in bars, Restaurants, Coffee Shops, Airports and Bus Stations. Green Smoke is Manufactured with Quality in mind!

Green Smoke saves you money. Each cartridge will cost you \$2.95 and is comparable to a pack of cigarettes. With a pack of cigarettes today ranging between \$5-\$10 a pack I'm sure you can see how easy it will be to save hundreds of dollars. Saving money is a good thing but think how you will also be saving your health!

Now you can even calculate the savings here with the Green Smoke [e-cigarette calculator](#).

Green Smoke contains only water, nicotine and propylene glycol (a common additive in cake mixes and food coloring). This e-cigarette gives you the complete nicotine satisfaction without taking toll on your heart and lungs.

Another great benefit to the "new e-cigarette" is less waste. No more cigarette butts to deal with and no more stinky ashtrays. If you just got a new car and don't want to stain your car with the smell of tobacco but still enjoy smoking while driving this is for you. Think of all the possibilities that prevented you from smoking before that you don't even have to worry about now.

If your serious about changing your health for the better and saving money along with not smelling like an ashtray for good visit www.Greensmoke.com for more information.

Thanks for reading my Green Smoke reviews.

Testimonials on Green Smoke Reviews Flavors:

"I have been told the Regular Tobacco flavor is more like a sweet pipe tobacco flavor,

and the Tobacco Marl is supposed to be more like a regular cigarette flavor, although I have yet to test it.

The Vanilla has a pleasant but not strong vanilla flavor, and I consider it the most basic of the flavors.

The Menthol flavor is very close to the flavor of a regular menthol cigarette, for those who like menthol cigarettes.

The Chocolate flavor is not strongly flavored but has a good taste.

The Coffee flavor is very light but some people like how smooth it is.

The Apple has the least powerful flavor with a green apple smell, great for those who want the least harsh cartridge.

The Strawberry has a strawberry quick like flavor but tastes sort of like strawberry incense when smoked, and may be the smoothest of the stronger flavored cartridges."

****** Update!! 6/21/2010 First Day of Summer! ******
