# **Review Of The "V2 Economy Kit" E Cigarette Starter Kit**

**This is the most basic e cigarette starter kit made by V2 Cigs.**

**It comes with:**

- **One V2 Cigs Standard Size Automatic Battery (with a lifetime warranty)**
- **One USB Charger**
- **One Wall Charger Adapter**
- **Ten Refill Cartridges**
- **One User's Manual**

This is all you need to get started with e cigarettes, and the cheapest way to go, if you just want to try them out. The battery comes in the standard size with your choice of color. You are also able to choose the strength and flavor of refill cartridges that are included with the kit.

When you receive your kit in the mail, the battery usually comes charged. All you have to do is attach a refill cartridge, and take a drag. You will find that it isn't exactly like smoking, but it is remarkably similar. Once the battery runs out of juice, it can be recharged with either a wall charger or a computer USB port. Each cartridge typically provides the same amount of drags you would get from a pack of cigarettes. So the ten cartridges it comes with should last about as long as a carton of smokes. The batteries will last anywhere from a day, to a few days depending on how often you are using it.

The V2 Economy Kit is a good choice if you either know you are not going to be using it all the time and you don't need multiple batteries, or if you just want to give e cigs a try without making a huge investment.

After testing out numerous different brands of e cigarettes I have become convinced that V2 Cigs is indeed the best company on the market today. I don't recommend anyone try any other brand. I have not seen or tried them all, but from what I have seen V2 Cigs e cigarettes are superior to all other brands.

**Besides the e cigarette starter kits they make, they also offer a wide range of e cigarette accessories, including:**

- **E Cigarette Batteries (Available In Three Different Lengths And Four Different Colors)**
- **Ten Different Flavors Of E Cigarette Refill Cartridges In Four Different Strengths**
- **E Cigarette Carrying Cases, Both In A Soft Cloth, And In A Hard Clam Shell Style**

**- Portable Recharging Case That Allows You To Recharge Your Batteries Anywhere**

- E Juice (A.K.A. E Liquid) That You Can Use To Refill Cartridge**
- Universal Cartridge Adapters That Allow You To Use V2 E Juice With Any E Cig Brand**
- And Other Styles Of E Cigs As Well As A Few Other Accessories**

V2 Cigs is the best brand to choose for new or experienced e smokers. They offer a lifetime warranty with all their batteries. They have the most satisfied customers. They sell for a good price. And they are great quality.

The V2 Cigs website also features a clearance section where stuff that is in overstock can be gotten on the cheap. There are also coupon codes that can be found online that can keep the cost down. If you really want a good deal you may want to wait around until they have a sale because they typically have some kind of promotion or another about once a month.
