Burn Your Favorite Video Games - You Won't Have To Hack Or Mod Your Game Console!

How many PS3 or Xbox 360 games you would like to have or how many times have you broke a video game and have to go back to the store to buy a new one? It is hard to pay those hefty bills for your console. A video game in the store costs almost \$80.00. That is not that far from \$100. Who has hundreds of dollars to invest in video games now a days. We need a solution to help us in our time of need.

How would you like to burn video games to your game console and it will work without the need to mod or hack your system. If you check out YouTube and search the keywords " Play burned games on PS3/PS2/Xbox/Xbox 360." The main things you will see is how to trick your system or mod your game console system. You can't just burn a game system and think it will work on your game console. Trust me all game consoles have a security reader that can tell it if the game is original or a bootleg copy.

Well technology these days have vastly upgraded and updated. There are very few software's that can break through the game consoles security breach. And it is very hard to find a legit software considering the fact that there are also fake ones that give you the impression that they are real. You cannot afford to waste time and money on video games or scams. I have saved over \$1000's of dollars on video games. I admit that I am not careful with my video games. So I am thankful for having a software that saves me money.

What is the software you ask. Well it is a software that has been used by many gamers. The world's leading software is non- other than Game Copy Wizard 2010. Game Copy Wizard is the most powerful online game burning software. This software breaks through the most toughest game console reading security.

Here is what Game Copy Wizard 2010 does:

- Backup games from the consoles like Xbox 360, Xbox, PS3, PS2, Nintendo Wii, Gamecube, PC, Dreamcast. Works even for PC games!
- Also you will be able to backup your Video or Music DVDs, containing your favorite Movie, Music or Series.
- Finally you will also be able to create Video DVDs, from the media files you have. All popular video files are supported from Divx, xvid to mp4.
- The Game Copy Wizard is so advanced that it gets through the latest unbreakable protection easily and lets you Burn these games to any regular blank CD or DVD.
- Always updated
